Where Life & Science Merge

Introducing Emery Yards, a cutting-edge 1.3 million SF new multi-building lab and office campus mindfully designed for the life sciences industry at the center of Emeryville, the Bay Area's emerging biotech hub. Available spaces starting at 10,000 square feet.

This singular campus features purpose-built lab buildings elevated by modern amenities and programming. They are interwoven with acres of sustainable open space and upgraded infrastructure to support the mission-critical needs of tenants and lead to groundbreaking discoveries. Emery Yards' certainty of delivery provides peace of mind and mitigates tenant risk.

Welcome to Emeryville

Emery Yards is within walking distance of the Public Market and adjacent to Powell Street Plaza and Bay Street, which offer a variety of retail, dining, hospitality, and entertainment venues — as well as other lifestyle amenities. Its Emeryville location embeds the campus in a community of notable life science companies and likeminded innovators.

Make Forward Progress, with a Reverse Commute

Located blocks off I-80/580 and CA-24, Emery Yards offers a desirable reverse commute from San Francisco and the peninsula, where tenants arrive at a dedicated parking structure with ample spaces, including EV charging stations. Upgraded pedestrian infrastructure creates safe and convenient access to the MacArthur BART station and an Amtrak terminal with commuter service within California and cross-country.

A Catalyst for Connection

Collaboration is fundamental to discovery — the Emery Yards campus is interwoven and energized by open-air greenspace designed to cultivate community and deliver safe, convenient accessibility. Newly built pocket parks, dedicated bike lanes, and pedestrian thoroughfares encourage connection and seamlessly weave Emery Yards into the fabric of the city.

Flexibility at an Unparalleled Scale

BioMed Realty specializes in developing purpose-built lab space that can scale to support the growth of our tenants' mission-critical research. Skilled at developing a full spectrum of lab designs, BioMed invests alongside our tenants to manage the construction of their spaces, from customized solutions to highly flexible open labs that can be reconfigured to evolve. It's how we do our part in support of our tenants' innovative research.

The BioMed Difference

BioMed Realty is a leading private provider of real estate solutions to the life science and technology industries.

BioMed Realty, a Blackstone Real Estate portfolio company, is a leading provider of real estate solutions to the life science and technology industries. BioMed owns and operates high quality life science real estate comprising 15.9 million square feet concentrated in leading innovation markets throughout the United States and United Kingdom, including Boston/Cambridge, San Francisco, San Diego, Seattle, Boulder and Cambridge, U.K. In addition, BioMed maintains a premier development platform with 2.5 million square feet of Class A properties in active construction to meet the growing demand of the life science industry.

We are fortunate to have a world-class sponsor in Blackstone, a strong believer of long-term market fundamentals of the life science industry. Since 2016, Blackstone and BMR have been actively investing in developing, modernizing, and expanding research facilities in our core innovation markets.
